MARKLENN AZUELO

BSIT Student | Software Developer

CAREER OBJECTIVE

A Bachelor of Science in Information Technology student at STI College Cotabato seeking an On-the-Job Training (OJT) position at DSA, where my experience in mobile and web application development, problem-solving, and leadership can be applied in a professional IT environment. Eager to gain practical industry experience while contributing to the company's objectives.

EDUCATION

STI College Cotabato *Expected Graduation: 2027*
Bachelor of Science in Information Technology

PROJECT EXPERIENCE

WeFind: A Location-Based Boarding House Finder Mobile Application *2026*
Capstone Project · Group Leader and Lead Developer

- Led the capstone team and built a mobile app with a web admin panel that helps tenants find boarding houses in Cotabato City, using Flutter and Firebase.
- Implemented location-based features with Google Maps, including a map picker restricted to Cotabato City.
- Developed tenant and landlord accounts, listing management, saved listings, and a reviews and ratings system.
- Built real-time chat with media sharing and in-app voice calling using Agora RTC with push notifications.
- Designed a reservation workflow with GCash payment-proof submission, landlord confirmation, and contract management.
- Created admin tools for landlord verification, report moderation, and automated approval emails.

PubliShare: APK and Document Publishing Website *Personal*

- Developed a website using Flutter web and Firebase for publishing app releases and documents organized into folders.
